Video transcripts

Video transcripts 01 (Miss. PRABHANI BHAGYA – Chemical Analyst):

00:00:06 Ayodhya:
Hi, I am Ayodhya, UX designer in books.lk website.

00:00:12 Ayodhya:
can you please tell me about yourself.?

00:00:15 Prabhani:
Hi, Ayodhya am Prabhani Mullegama.

00:00:18 Prabhani:
I am a working woman and I am currently working as a chemical analyst at SGS Lanka pvt.Ltd. so it's briefly about me.

00:00:28 Ayodhya:
I want to collect some user experience about our website.
now I give you few tasks. can you follow those?

00:00:37 Prabhani:
yes sure.

00:00:39 Ayodhya:
Ok then, let's move in to the books.lk website.

00:00:44 Prabhani:
Ok I'm sharing my screen. I guess you can see it right.

00:00:53
Ayodya:
Ok.

00:00:56 Prabhani:
ok here I am in the page.

00:01:05 Ayodhya:
Ok then firstly we navigate to the books.lk website.
try to sign up for books.lk website.

00:01:08 Prabhani
mmmm.... sign up (searching sign up button)
the icons are ?? ahh here

00:01:20 Ayodhya:
yes, it is on right side.

00:01:22 Prabhani:
ah no it's here. the icons are too small.

00:01:33 Ayodhya:
then firstly you have to register

00:01:36 Prabhani:
Ok

00:02:37 Prabhani:
ok so I'm here registering my account.

00:02:53 Ayodhya:
try to update the profile details.

00:02:57 Prabhani:
MMM.. (searching the details for where to update)

00:03:02 Prabhani:
ahh it is here

00:03:58 Prabhani:
Ok I have updated the details

00:04:20 Ayodhya:
ok then
try to log out from the system, please.

00:04:21 Prabhani:
ok umm (searching the logging button)

00:04:36 Prabhani:
here I'm log out from system

00:04:40 Ayodhya:
Thank you very much.

00:04:44 Ayodhya:
So, then I have some questions about the site.
why do you use the site?

00:04:50 Prabhani:
because reading books is my kind a hobby
so, through the online shopping i found several websites
and do shopping. when I go to the website, I found this and
it seems kind an interesting. because it has new and old books
and also, magazine as well.

00:05:14 Ayodhya:
ok then
Did you found what you are looking,
after you entered the home page.

00:05:19 Prabhani:
yes, I have found some. but there were some falls because
some of the books are there. but the cover page was missing.
so therefor even if like that books,
there is a possibility of not to buying that books.
So, I think it is kind a difficulty.

00:05:44 Ayodhya:
did you able to login to the website.

00:05:48 Prabhani:
yes, initially I registered and then I log in to my
account. but there is no any method to change my
profile picture when moving to the account.

00:06:02 Ayodhya:
Did you access to the account from home page?

00:06:05 Prabhani:
yes, I do. but it is little bit difficult to find the user account from the
home page.

00:06:16 Ayodhya:
Did you able to update your profile.

00:06:18 Prabhani:
yes.
but interfaces are not attractive and I think the colors are absolutely not match to the interface and there are no any pop messages to know clearly about the update as well

00:06:36 Ayodhya:
Did you able to reset your password.

00:06:38 Prabhani:
yes, I did.

00:06:41 Ayodhya:
Did you able to log out from the system.

00:06:44 Prabhani:
yes. I did

00:06:49 Ayodhya:
Are you satisfying with logging format?

00:06:54 Prabhani:
aaa... when it's coming to logging format. no, I think it's good
to change the logging page more attractively with using more user-friendly colors.
and also, it would be much appreciated if you can
improve login validation also.

00:07:16 Ayodhya:
you successfully answered all the things that I wanted to know.
Thank you very much.

00:07:22 Prabhani:
ok you're welcome!

Video Transcripts 02 (Miss. INURI GAMAGE – Fashion Designer):

00.00.02 - Lavindya
Hi I am Lavindya, an undergraduate student in the IT faculty of SLIIT.

00.00.07 - Lavindya
Me and my team members chose a books.lk website for an assignment.
But we found that there are some problems with the website.

00.00.15 - Lavindya
So, I want to collect your user experience and user-related information about the book.lk website.

00.00.23 - Lavindya
So first of all, can you introduce yourself?

00.00.26 - Inuri
Yes, Lavindya. Let me introduce myself

00.00.29 - Inuri
I am a fashion designer who has 3 years of experience in this job.

00.00.33 - Inuri
My name is Inuri Gamage.

00.00.35 - Inuri
I am very experienced in various fashion styles for all seasons and I have made various models' men and women for a famous brand.

00.00.42 - Inuri
Now I work at Picasso PVT Ltd company.

00.00.46 - Lavindya
Okay thank you. Firstly, we move to the tasks that you need to do on this website.

00.00.55 - Lavindya
So, can you share your screen?

00.00.57 - Inuri
Yeah sure.

00.01.05 - Inuri
Just give me a second.

00.01.06 - Lavindya
Okay

00.01.21 - Inuri
Can you see my screen?

00.01.23 - Lavindya
Mmm yeah, I can see.

00.01.26 - Inuri
Yeah, I will search for books.lk.

00.01.30 - Lavindya
Okay.

00.01.36 - Lavindya
Okay, then login to your account

00.01.37 - Inuri
Okay.

00.01.50- Lavindya
Okay well. Try to access the products in the navigation bar.

00.00.57 - Inuri
Okay firstly I will choose to "back to store" from here

00.02.19 - Inuri
Okay

00.02.20 - Inuri
Select a product.

00.02.23 - Inuri
Shall I search for a one

00.02.26 - Lavindya
Okay

00.02.30 - Inuri
Mmm I am a fashion designer. So, I am normally searching for fashion designing books. So, I will search for a fashion designing book.

00.02.48 - Inuri
These are the search results

00.02.55 - Inuri
Can you add one book in to the cart

00.02.59 - Inuri
Okay

00.03.07 - Inuri
So, I interested in this book, so I will add this one to the cart

00.03.18 - Inuri
That book was added to the cart. Earlier I added another one.

00.03.23 - Inuri
Okay. Then go to the checkout.

00.03.37 - Inuri
Here is the page that I have redirected to

00.03.43 - Inuri
Okay can you fill the details

00.03.44 - Inuri
Yeah sure.

00.04.32 - Inuri
So, I will add cash on delivery

00.04.40 - Inuri
Okay that's enough

00.04.44 - Inuri
The checkout process is working. I think.

00.04.47 - Inuri

Mm Then go back to the home page.

00.04.53 - Inuri

Then, I have to ask a few questions about your user experience of this web site.

00.04.59 - Inuri

So, my first question is, how did you know about this site?

00.05.07 - Inuri

I got to know about this site from Facebook. While I am surfing through Facebook I saw an advertisement on this site.

00.05.17 - Inuri

Then the second question is, Which times do you visit this kind of site?

00.05.22- Inuri

Normally I am a book lover. And I am a fashion designer. So I frequently surf through these sites. But for this site I have not used much.

00.05.38 - Lavindya

The third question is, What are the product categories that you are searching mostly from this website?

00.05.45 - Inuri

Considering this site I am more interested in searching for fashion designing books and some sort of historical books.

00.05.57 - Lavindya

Okay. Then the fourth question is, Are you a frequent visitor to this site?

00.06.05 - Inuri

Mmm no

00.06.09 - Lavindya

5th one is, Do you have any membership on this website?

00.06.14 - Inuri

Yes

00.06.19 - Inuri

Okay. Last question, Are you satisfied with this site?

00.06.24 - Inuri

Ahh I would say no. Because I feel like the user experience of this site is quite bad. Interface is not much attractive and it is kind of messy.

00.06.39 – Inuri

Here, the navigation bar is not highlighting here. Just a messy user interface and sometimes not sometimes in most of the time get error message saying ‘failed to load database connection’ likewise and when I search for keywords the search function is not working very well. because there it suggests other criterias apart from my search criteria.

00.07.19 – Inuri

mmm And, again most of the books don’t have any picture or any attractive thing so sometimes I can’t get any idea about the book. I would say the details of the books are not enough.

00.07.40 – Lavindya

Okay thank you Inuri, Thank you for your support. Let’s windup the session.

00.07.43 – Inuri

Okay Lavindya.

Video transcripts 03 (Mr. KAMAL BANDARA – Student (Undergraduate at SLIIT)):

00:00:01 Kavindu:
Good evening sir.

00:00:03 Kamal:
good evening.

00:00:03 Kavindu:
I'm 3rd year student at SLIIT we have module call human computer interaction So this module we have to find less user interaction web site and we have developed it. So, we have to choose books.lk as our website.

00.00.24 Kavindu:
sir can I ask your question related this website and give same task to do.is there ok sir?

00:00:34 Kamal:
yeah! ok sure.

00:00:38Kavindu
how often you visit this website?

00:00:42 Kamal:
I'm student myself as well.so in order to get out the frustration of academic I read books in my leisure time .so in a month i will use this website 2 or 3 days.

00:01:23 Kavindu:
ok sir, can you go to books.lk and create new account?

00:01:09 Kamal:
yeah! let me share my screen.

00:01:25 Kamal:
to create and account I have to.... I think click aa.... (searching sign in button) yes sign in.

00:01:39 Kamal:
give my name as a ...

00:01:52 Kamal:
email here.

00:02:00 Kamal:
yeah so I have create an account here.

00:02:05 Kavindu:
ok sir, did you find what you are looking for after you login the website?

00:02:11 Kamal:
a no after I logging as you can see there is a poorly design dashboard here. I think I have to go to the store and there I can see several books.

00:02:30 Kavindu:
ok sir, can you search book in search pane?

00:02:36 Kamal:
yeah, I think I can.

00:02:48 Kamal:
this is the book that i have already searched here.in passed scenarios.

00:02:58 Kamal:
as you can see, when I search the book, I can get the particular book.

00:03:05 Kavindu:
ok sir, how are you find details about newly add books?

00:03:10 Kamal:
to get the newly added books details i have to go to the home page.

00:03:28 Kamal:
in the home page you can see, there some books listed down those are the newly added book. to get the details about books I have click the quick view.

00:03:50 Kavindu:
sir, have you order online products on this website earlier?

00:03:57 Kamal:
Not yet because this site still maintains their sequrity.so I didn't order any book this a site previously.

00.04.14 Kavindu:

Sir, can you have added desired book to cart.

00:04:23 Kamal:
yeah, let me click on the add toc art here.

00:04:29 Kamal:
It's in my cart. I think yeah.

00:04:35Kavindu:
sir, can you update the cart.

00:04:37 Kamal:
aa... to get the new books I think I can update. (searching the details for where to update)

00:04:44 Kamal:
the update button didn't do much here.

00:04:47 Kavindu:
ok sir, can you try to delete books in cart.

00:03:16: Kamal:
to remove the book. (searching delete button)

00:05:01 Kamal:
yeah! I think by pressing on the cross i can remove the book. It's safe removed.

00:05:18 Kavindu:
ok sir, my questions are over.

00:05:24Kavindu:
so, I have to come up with end of the session sir. I would like to thank you much your contribution and support this service. I very glad to have and interview with you.

00:05:38 Kamal:
yeah! pleasure is my too. thank you very much.

00:05:41
Kavindu:
good bye sir!

Usability Issues

1. There are more white spaces in this site.
2. There is no footer.
3. There is no proper color theme. The colors they have used are not matching.
4. There are no images for items, therefore customers cannot get a proper idea about the book.
5. This site is not user friendly. It shows some notification messages but it is not eye-catching.
6. Feedback option is not noticeable.
7. Footer is not well organized.
8. Users can't identify the Logout button properly.
9. This site is not user friendly. It does not show alert messages and user-friendly.
10. There is no proper color theme and same color use everywhere.
13. Also, there is no proper alignment between product carts
14. No Proper Search bar, so users cannot identify search bars.
15. User cannot identify the Subtotal of the product in the Cart.
16. Content is not well organized.
17. some book cover images are missing according to the relevant books.

Justification of the variants

Member 1: IT20649494

Magazine Page

Differences between the variants

In variant 1, the main titles of the magazine page, international magazines and local magazines, are designed vertically in the middle of the page. But in variant 2, the main topics, international magazines and local magazines, are designed horizontally from the top to the middle of the page. It is designed in such a way that it is very user friendly. In variant1, all other magazines have been designed on the left side and right side from top to bottom for the main titles, international magazines and local magazines. But in variant 2, all other magazines are designed horizontally below the two main titles.

Justification of the selected variant

Selected variant –variant 2

Variant 2 can be taken as the best one over variant 1. Because there is a large empty space in the middle, in variant 1, the magazines are designed to be on the left and right side, which is not user friendly. It has reduced the ability to use the page properly. But in variant 2, very clear and orderly magazines have been designed below the two main titles. Because of this, the page is positioned well and clearly in a more user-friendly manner.

Return Policy Page

Differences between the variants

According to the variant 1 design, some paragraphs have been separated. But because everything is paragraphed together. But in variant 2, since the contents of all the topics are separated as points and the important points are highlighted separately, the user will not get bored. But in variant 1 such important points are not highlighted clearly. In variant 1, there is no way to clearly see the mail address that should be associated with the relevant phone numbers of the company. But in variant 2, if the customer has a problem with the company, the phone numbers and mail addresses to be contacted are clearly and orderly.

Justification of the selected variant

Selected variant –variant 2

Variant 2 can be taken as the best design among these designs. In variant 2, the facts have been separated into paragraphs in a more orderly and clearly user-friendly manner than variant 1. In variant 1, the points are not entered as points, so the user gets bored while reading the content. But in variant 2, the content is very easy to read because the points are separated. Unlike variant 1, variant 2 is very user friendly because of the color combination used to separate the points. In variant 1, the company's contacts are not clearly displayed, so it is less user friendly. But in variant 2, it is very user friendly because all relevant data and contacts have been entered clearly and neatly. Therefore variant 2 can be taken as the best design.

Account page

Differences between the variants

In variant 1, the forms are designed vertically. But in variant 2, the forms are designed horizontally. Invariant1, the first thing the user has to see is the login form. The register form is designed after the login form in variant 1. But when a new user comes to the account page, the fact that the forms have been designed in that way is confusing. But in variant 2, the forms are designed in such a way that the registration form comes first and then the login form. Therefore, it is very easy for the user who first comes to the account page to understand it. In variant 1, the remember me option is located directly below the password. But in variant 2, it is clearly designed below the password. In variant 1, the My Account header is located on the left side. But in variant 2, my account header is located above the register and login forms.

Justification of the selected variant

Selected variant –variant 1

Variant 2 is more user friendly than variant 1. Because in variant 1, when a user first comes to the account page, the first thing to see is the login form. After that, the registration form is located. It is very confusing to have it that way. But in variant 2, the first thing to see is the register form. Only then you will see the login form. Therefore, the user can understand well that he must first register and then log in. It is very clear. In variant 1, the remember me option in the login form is not clear because it is located directly below the password. But in variant 2, the remember me option is clearly placed in order. The account header of variant 2 is more user friendly than the account header page of variant 1. Therefore, the best design is variant 2.

Ideation technique used: brainstorming

Member 2: IT20666842

Sinhala books Page

Differences between the variants

In variant 2, a link was used for left-side navigation. However, in variant 1, navigation is user-friendly. There is a slideshow component (carousel) in variant 1, but none in variant 2.

Justification of the selected variant

Selected variant: Variant 1

We chose "Variant 1" from these two variants to develop as the "Sinhala Book" Page of this website. Because it is more user-friendly than the alternative. Because of this, users can gain a clear understanding of Sinhala book categories. Because of the page's content, variant 1 is also an eye-catching design.

About Us Page

Differences between the variants

In variant 1, The text boxes contain some paragraphs. In variant 2 there are no text boxes, and all paragraphs are aligned to the left as is customary. In variant 1, use the image and there is no any image in variant 2.

Justification of the selected variant

Selected variant: Variant 1

In variant 1 content alignment is well organized. Variant 1 is the more user-friendly and attractive sketch than Variant 2. As a result, the user has a clear understanding of the website.

Address Page

Differences between the variants

The form fields are more aligned to the left side of the page in variant 1, but well organized in variant 2. In variant 1, the save button is located on the left side of Conner. However, in variant 2, the save button is located at the bottom of the form. Variant 1 does not include a page head title, whereas Variant 2 does. In variant 1, the left side navigation is inconvenient. However, in variant 2, the navigation is more user-friendly.

Justification of the selected variant

Selected variant: **variant 2**

Variant 2 is a more approachable sketch than Variant 1. Because the text boxes are well organized and simple to understand, the user can fill out information clearly. In variant 2, the page has a page title so that the user understands the current page and what to expect from it. Buttons are used for sub-navigation so that the user can easily identify the navigation and get to their task. It is more appealing and user-friendly than variant 1 navigation.

Ideation technique used: brainstorming

Member 3: IT20637682

Second Hand Books Page

Differences between the variants

In variant 1, books are designed in vertical and horizontal. Details about books are under the book picture. Sort by and price range button design in right side and over the book segments and close to each other. In variant 2 books and design only in vertically. Details are Right to the book's picture. Sort by and price range buttons are away from each other.

Justification of the selected variant

Selected variant –variant 1

It is more user friendly than Variant 2. Users can simply and quickly find books because books are in both vertical and horizontal. But variant 2 only vertical and it's got same time to find a book.

E-Gift Card Page

Differences between the variants

Variant 1 Gift card topic is in the Left side corner. Gift card items organized in vertical and horizontal Details background color is white. In variant 2 topic is in middle of the page. Item organized only horizontally. Gift card image and details are in one segment and separated the gift cards into different segments.

Justification of the selected variant

Selected variant: Variant 2

From these two variants we selected “Variant 2”. User can select the gift cards quickly because variant 2 gift cards in separately. But variant 1 it's in together. So variant 2 is more user friendly and attractive.

Checkout Page

Differences between the variant

In variant1, Checkout navigation bar in to the left side in the page and also books.lk logo in there. The form is in the right side in the page and name fields in there. Country/Region and address have dropdown selection. Variant 2 checkout navigation in the top of the form. Also, placeholders in there. Only country/region has dropdown selections.

Justification of the selected variant

Selected variant –variant 1

From these two variants we selected “Variant 2”. User can clearly find Checkout navigation brand name fields, text boxes. So, It's better than another variant's placeholder. Also, variant 1 is creative and well organized.

Ideation technique used: brainstorming

Member 4: IT20646592

Order Page

This page is displayed after clicking the view button of a specific book.

Differences between the variant

In variant 1, the image of the book is displayed on the upper left side. To the right of the image are the latest price, quantity, and "Add to Cart" or "Buy Now" buttons. Variant 1 'Important Information' and 'Book Description' section appear horizontally in the middle of the page. Above the 'Related Items' section there is a review section in a user-friendly manner.

In variant 2, the book image is displayed horizontally at the top of the page. Below the image, the book's important information displays on the left side and price, quantity, “Add to Cart" or "Buy Now" buttons appear on the right side.
The 'Book Description' and 'Review Section' appear separately in the middle of the page and can be accessed by clicking separately. There is also a Related Items section positioned horizontally at the bottom of the page.

Justification of the selected variant

Selected variant –variant 2
Variant 1 is more user friendly than Variant 2. Because it is not appropriate to apply it horizontally when embedding the image in a book. This format is easy to use because the image of variant 1 is applied vertically and the information is divided in order of importance in the presentation of information.

FAQ Page

At the top of the header, users can view the FAQ page.

Differences between the variant

The FAQ page has 5 sections for Orders, E-Gift Vouchers, Payments, Delivery and Other Grants. In variant 1, the 5 sections are designed to be accessible by clicking one by one horizontally across the top of the page. In variant 2, 5 sections are created in vertical drop down style. It can be inconvenient for a customer as he/she has to keep scrolling to access the relevant section.

Justification of the selected variant

Selected variant: variant 1

Variant 1 is more user friendly than Variant 2 because when categories are positioned horizontally, users don't need to scroll the page continuously.

Home Page

When the user enters the website, the first page he/she sees is the home page.

Differences between the variant

In Variant 1, the "Latest Books" section is positioned horizontally below the home page header. At the bottom of the page is the "About Books" section. In that section we hope to attract readers and buyers to read more books. In variant 2, the "Latest Books" section is positioned on the entire home page. There are no other attractive things.

Justification of the selected variant

Selected variant: variant 1
Variant 1 is more user friendly than Variant 2 because the user does not need to scroll the page. They can swipe one by one to check out the latest books on the home page. Authors don't publish new books every day. So, there are not many new books. So, this swiping method is the best for that. The customer can use the home page effortlessly, capturing useful phrases and images.

Discounted Books Page

Users can view the discounted books page by clicking the drop-down navigation bar in the header.

Differences between the variant

In variant 1, book items appear vertically in row by row. Sort and discount range filter options are placed in the upper right corner.

In variant 2, book items appear horizontally. Sorting and discount range filters are placed on the left and right of the optional top margins.

Justification of the selected variant

Selected variant: variant 1

Variant 1 is more user friendly than Variant 2. Because the layout is very attractive and clear to understand.

Contact Us Page

At the top of the header, the user can view the Contact Us page.

Differences between the variant

In Variant 1, the 'Contact Us' page description is displayed horizontally at the top of the page. Their 'Contact Us' information is displayed vertically with a clickable option below the description. Variant 1 has more white space and the paragraph font size is small. Maybe users will lose interest in reading because it is generic.

In variant 2, the 'Contact Us' page description and information are vertically in the same margin. Contact Us information appears on the right and description appears on the left. No more white spaces. Readable font sizes available.

Justification of the selected variant

Selected variant: variant 2

Variant 2 is more user friendly than Variant 1 as it is easy to understand and the layout of the model is pleasing to look at and the font used makes the description easy to read. The user gets a better idea about the company and can easily connect by clicking on the information.

Cart Page

The user can view the cart page by clicking the cart icon on the top right side of the header.

Differences between the variant

In Variant 1, there is a cancel button on the right side of each book item to remove the added book if the customer wants. Book reviews and prices are in the top left corner of each book. The book image, name, and book descriptions appear horizontally in the middle of each book item section in order. The quantity option is in the lower left corner of each book item.There is no update button. There are three sections at the bottom of the page. Included a section to display shipping costs, a section to type in gift card numbers, and a section to display total cost with a 'Buy Now' button.

In variant 2, book image, name, description, price, quantity and sub-collection are arranged horizontally. If a customer wants to cancel the order, there is a cancel icon in the top right corner of each book item. The review section is below the book image of each book item. If the customer wants to update the cart, there is an update button below all the book items. At the bottom of the page there is a separate 'Cart Total' section. Go to ‘Pay Now' and ‘Proceed to Checkout’ buttons to continue with order placement.

Justification of the selected variant

Selected variant: variant

Variant 2 is more user friendly than Variant 1 as this structure is very easy to use and understandable. There is also an update button. The customer can get a clear idea of the 'cart total' section very quickly so no much time is wasted.
