Profile

An energetic, motivated and highly dynamic person with strong working skills and a broad range of hands-on and theoretical experience ranging in many areas such as information technology, projects, program, delivery and operation management, corporate IT strategy, digital infrastructure services, cloud technologies, DevOps and finance. Long track records of ensuring projects (250+ Azure SaaS Solutions & 25+ Custom Solutions) are delivered to the highest quality within budget by effectively organizing, managing and utilizing all resources. Adept at providing technical support and developing new processes through ongoing work, defect resolution and enhancement solutions. Expert in completing demanding assignments within crucial timelines. Highly articulate, demonstrating excellent interpersonal skills. Strong management skills and methodical aptitude with an innate ability in decision-making, coordinating and synthesizing data.

Career Specifics

Axiata Group (Digital Lab), Dec-2023 – Current
https://www.axiata.com / Malaysia, Sri Lanka
Program Manager - Technical

As a Technical Program Manager specializing in telecommunications, responsibilities entail supervising both technical and project teams, ensuring the successful execution and timely delivery of intricate technical projects while adhering to allocated budgets. This includes guaranteeing alignment with project objectives and financial targets. Additionally, tasks involve risk management, technical evaluations and supervise designs, pre-sales engagement, alongside efficient communication of progress to stakeholders. Proactive participation in shaping product strategy, utilizing technical proficiency to foster innovation and enhance operational effectiveness, is integral. Furthermore, driving ongoing improvement initiatives and staying abreast of industry trends and emerging technologies are also key components of the role.

Sumathi Holdings (Retail Information Technologies), Sri Lanka Feb 2022 – March 2023

Enadoc – Singapore. Sep 2021 – Feb 2022
Head of Strategy

Oversees the development, communication, and execution of strategic initiatives to achieve new business for products in SaaS platform. directs research projects across multiple teams and drives strategy creation with stakeholders while creates content and narration for presenting new business models, partner onboarding and re-seller management and designs strategic roadmaps for innovation and commercial activities. played a key role in leading change management initiatives for the organization.

Tech One Global, Sri Lanka (9 countries) Jan 2014 – Sep 2021
Head of Global Delivery – Technical

Over the past decade, as the Technical Delivery Global Delivery Head, my primary focus has been on executing solution implementations within SaaS platforms and deploying tenant-based products in the cloud for a global audience. With a keen eye on enterprise-level requirements, I've provided leadership in managing Azure subscriptions and overseeing reseller relationships, ensuring optimal performance and cost efficiency. My responsibilities extend to partner onboarding and management, fostering collaborative relationships for seamless integration. I've led the technical evaluation and feasibility studies of numerous new solutions, ensuring alignment with business objectives and technical standards. Overseeing the management of 350+ Azure-based solutions, I've maintained a high level of technical proficiency and adaptability. Additionally, I've spearheaded the delivery of 30+ custom solutions, addressing unique challenges and requirements across diverse markets. My role emphasizes a deep understanding of technical intricacies and a commitment to delivering scalable, innovative solutions to the global market.
